NOTICE:

All of these enhancement classes can be seen on our website at www.ikrcc.com. There is a map for directions to reach each of the training campuses. There is a lot of useful information about your union at this website.

All refresher classes have to be scheduled separately from full classes now; therefore, we CANNOT use the first 8 hours of a Scaffold Erector class as a refresher. ALL REFRESHER COURSES ARE NOW STAND ALONE COURSES.

For millwrights who need the Millwright 16 class, we can no longer just add six hours to the OSHA 10. Even if you have OSHA 10 already, you will have to take the entire Millwright 16 class (all 16 hours).

NOTES:

The initials behind each course indicate the instructor for that course. They are:

AC - Andy Carr

MR – Mark Rasure

RG - Ron Gibson

BM - Bobby Miller

BW – Bill Wright

JN - James Newkirk

RP – Royce Peters

CS – Chris Skidmore

GS – Greg Smith

EH – Ed Harms

TK – Tom Koons

RGJ – Ragon Gregg Jr.

AP – Andrew Perry

You must attend all the dates listed under each course in order to successfully complete and pass the course.
